DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

The abstract appears on the first page of applicants' specification and it should be on a separate page by itself. Appropriate correction is required.

2. Applicants' specification is objected to because it does not follow the format as set forth in the MPEP.

The following guidelines illustrate the preferred layout and content for patent applications. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

The following order or arrangement is preferred in framing the specification and, except for the reference to the drawings, each of the lettered items should appear in upper case, without underling or bold type, as section headings. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) Title of the Invention.
- (b) Cross-Reference to Related Applications.
- (c) Statement Regarding Federally Sponsored Research or Development.
- (d) Reference to a "Sequence Listing," a table, or a computer program listing appendix submitted on compact disc (see 37 CFR 1.52(e)(5)).

Art Unit: 1754

- (e) Background of the Invention.
 - 1. Field of the Invention.
 - 2. Description of the Related Art including information disclosed under 37 CFR 1.97 and 1.98.
 - (f) Brief Summary of the Invention.
 - (g) Brief Description of the Several Views of the Drawing(s).
 - (h) Detailed Description of the Invention.
 - (i) Claim or Claims (commencing on a separate sheet).
 - (j) Abstract of the Disclosure (commencing on a separate sheet).
 - (k) Drawings.
 - (l) Sequence Listing, if on paper (see 37 CFR 1.821-1.825).
3. The title of the invention is objected to because it contains minor informalities. The following title is suggested: --Catalyst comprises a silica-alumina and its use for hydrocracking of hydrocarbon feedstocks--.

Response to Election/Restriction

4. Applicant's election of Group I, claims 1-9 & 15, in Paper No. 8 is acknowledged. Because applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Art Unit: 1754

5. Claims 10-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made without traverse in Paper No. 8.

6. Applicants' amendment, filed on July 8, 2003, has been considered. Claims 2-4, 6, & 8 have been amended. New claims 16-20 have been added.

Claims 1-20 are now pending in this application.

Claim Objections

7. Claims 1-9 & 16-19 are objected to because of the following informalities:

- A. In claim 1, line 1, "that" should be deleted.
- B. In claim 1, line 2, "that" should be deleted.
- C. In claim 1, line 4, "a content by weight of silica" should be --a silica content of--.
- D. In claim 1, line 5, "that is" should be deleted.
- E. In claim 1, line 7, "the volume" should be changed to --a volume--.
- F. In claim 1, line 9, "the volume" should be changed to --a volume--.
- G. In claim 1, line 9, "that is" should be deleted.
- H. In claim 1, line 11, "that is" should be deleted.
- I. In claim 2, line 1, "in which" should be replaced with --wherein--.
- J. In claim 3, line 1, "in which" should be replaced with --wherein--.

Art Unit: 1754

- K. In claim 4, line 1, “that contains” should be replaced with --further contains--.
- L. In claim 5, line 1, “that contains” should be replaced with --further contains--.
- M. In claim 5, line 2, “that is” should be deleted.
- N. In claim 6, line 1, “in which” should be replaced with --wherein--.
- O. In claim 7, line 1, “whose” should be replaced with --wherein the--.
- P. In claim 8, line 1, “in which” should be replaced with --wherein--.
- Q. In claim 8, line 1, “results from the mixture” should be changed to --comprises a mixture--.
- R. In claim 9, line 1, “that has undergone a sulfurization treatment” should be changed to --has been sulfur treated--.
- S. In claim 16, line 1, “that contains” should be replaced with --, further contains--.
- T. In claim 16, line 1, “that is” should be deleted.
- U. In claim 17, line 1, “in which” should be replaced with --wherein--.
- V. In claim 18, line 1, “whose” should be replaced with --the--.
- X. In claim 19, line 1, “that has undergone a sulfurization treatment” should be changed to --has been sulfur treated--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112 (Second Paragraph)

- 8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1754

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 1-9 & 15-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, line 2, recitation of "at least one silica-alumina" is unclear as to whether other support materials are included but not listed. Thus, renders the claim vague and indefinite.

Allowable Subject Matter

10. Claims 1-9 & 15-20 are not being rejected under the art rejection because they contain allowable subject matter. The following is the statement of reasons for allowable subject matter.

The prior art does not disclose or fairly suggest a catalyst requiring a silica-alumina substrate having the properties as recited in claim 1.

There is no motivation to combine the teachings of the references together.

Citations

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 1754

Conclusion

12. Claims 1-20 are pending. Claims 1-9 & 15-20 are rejected. Claims 10-14 are withdrawn due to nonelected (distinct) invention. No claims are allowed.
